

Mercedes

Welsh Cross Pony

Born: 2001 Gender: Mare (Female)

Mercedes joined our ohana in 2024 after the passing of her beloved pasture mate, King, which left her without her longtime companion. Her previous owners were facing health challenges that made it difficult to continue caring for her, and through this transition, Mercedes experienced change and loss of her own. As a result of her journey, Mercedes has a special way of connecting with families who are navigating grief. Her quiet strength and steady presence offer comfort during tender moments. She seems to understand what it means to lose someone important - and to slowly open her heart again. After arriving, she quickly bonded with Willink, reminding us that even after loss, new connections and hope are possible. Mercedes often stands as a gentle reminder that healing does not rush - it unfolds with patience, trust and compassion.

Fun Fact!

Horses are highly perceptive to subtle changes in their environment, often mirroring the emotions of those around them. They can even show a harmonious sync in heart rates!
